Superpro battery 700 advanced

BACKPACK VACUUM

The Superpro battery 700 Advanced has been designed with leading-edge battery power and brushless motor technology, delivering a superior combination of freedom, efficiency and productivity.

Lithium-ion battery technology

The lithium-ion battery utilises advanced technology to provide more power, longer runtime and faster charging, which improves overall performance and durability.

Provided with two sets of rechargeable lithium-ion battery packs, to keep you cleaning longer. One set is required for machine operation and the other is conveniently supplied to increase overall run time.
